## **Electronic Device Policy**

### **NO CELL PHONES: Unplug from Technology, Reconnect with Nature**

At Trackers we believe it's critical for kids to experience nature and community without being distracted by phones. Games and Social Media are designed to capture kids' attention and keep them hooked. We are teaching kids how to Pay Attention and we want them to get hooked on the plants and animals around them. Searching online gives kids instant gratification. At Trackers we want them to stick with skills, even when they are challenging. They're here to develop resilience and grit.

To accomplish these goals, we need Trackers (our students) to leave their phones and other internet and gaming devices at home while participating in our programs. Trackers staff follow similar rules. During program time they only use phones for operational purposes (maps, emergency calls, etc), not for entertainment.

At Trackers, *leave the phone at home* to better appreciate nature! You can blame it on us! We recommend stopping your child's cell phone and internet use 2 days (or more) before the start of their Trackers program. Any phones or devices brought to a Trackers camp or class will be collected at the beginning of the program, stored safely, and returned to the owner at the end of the program. Thank you for your understanding and compliance. Your child will have a much richer experience because of your support.

**Trackers Tip** Every morning, check the weather report. If there is even a minor chance of rain, pack a raincoat and rain pants, as well as waterproof shoes.
